INTRODUCTION

- A resume is a **formal document** that a **job applicant** creates to **itemize their qualifications for a position**. A resume is usually accompanied by a customized cover letter in which the applicant expresses an interest in a specific job or company and draws attention to the most relevant specifics on the resume.
- The purpose of “**ONLINE RESUME BUILDER WEBSITE**” is to automate the existing manual system by the help of computerized equipments and full-fledged computer software, fulfilling their requirements, so that their valuable data/information can be stored for a longer period with easy accessing and manipulation of the same. The required software and hardware are easily available and easy to work with.
- The aim is to automate its existing annual system by the help of computerized equipments and full-fledged computer software, fulfilling their requirements, so that their valuable data/information can be stored for a longer period with easy accessing and manipulation of the same. Basically the project describes how to manage for good performance and better services for the clients.

PROJECT FORMULATION

- **Features:**
- **Admin login:** Admin is the one who administers the system and input updates.
- **User login:** Users have to create an account into the system by registering themselves. Then they may login into the system and can utilize services.
- **Resume templates:** The system contains various kinds of resume templates for all kind of qualification i.e. for both fresher and experienced. And also according to the kind of degree one has.
- **Resume form:** Users on selecting the format will be given an online form to be filled. The form includes questions like academics, personal, interests, hobbies, skills, courses, experience and so on.
- **Resume builder:** On submitting the form the system stores the data and within a short period of time generates resume in selected format.
- **Choice of file:** User also given option to choose the kind of file they wish to create the resume i.e. in PDF file or word file.
- **Export facility:** Users can even export the file from word to PDF or vice-versa.

PROPOSED SOLUTION

- An online resume builder is a software developed to simplify the task of creating a resume for individuals. The application provides an effective means of designing desired resume in fact a professional looking resume. The system is flexible to be used and reduces the need of thinking and designing an appropriate resume according to qualifications. Usually individuals get confused while creating a resume especially for a novice person such as graduate students. They don't get a clear idea of what things and information must be included in a resume. Hence the system is developed to provide them an easy way for creating a professional looking resume.
- This project is user-friendly and requires minimum human intervention. Individuals just have to fill up a form that specifies questions from all required fields such as personal questions, educational, qualities, interest, skills and so on. The answers provided by the users are stored and the system automatically generates a well structured resume. Users have option to create resume in any format and file.

The background is a gradient of dark blue and purple, speckled with white dots resembling a starry sky. On the right side, there are faint, white, concentric circular patterns with tick marks, similar to a clock face or a radar display. Some of these circles have arrows indicating a clockwise direction. The text 'THANK YOU' is centered in the middle of the image, underlined.

THANK YOU
